

## Refrigerators & Freezers for Solar Power Systems

A range of refrigerators and freezers specifically made to operate from photovoltaic systems. Superior insulation and efficient 12 volt refrigeration system provide minimum power consumption whilst giving performance equal to a mains power appliance

### USES

- Remote farms
- House boats
- Safari camps
- Game farms
- Rural clinics
- Holiday homes

### FEATURES

- Thick polyurethane insulation
- Efficient 12V DC compressor
- Chest freezers and upright refrigerator with freezer compartment available
- Low power consumption makes best use of available power
- Photovoltaic panel kits available for each model
- Silent operation
- Low voltage cut out to protect batteries
- Entirely CFC free

### 80l Freezer (BS80F)

### 115l Freezer (BS115F)

MODEL	BS80F	BS115F
LENGTH mm	605	920
WIDTH mm	550	560
HEIGHT mm	890	700
CAPACITY l	80	115
WEIGHT kg	40	48
BASKETS	2	2
AMPS	5.0	5.0
POWER Ah/24hr	50	70
SOLAR KIT	SK3	SK4

### 115l Refrigerator (BS115R)

MODEL	BS225R	BS115R
LENGTH mm	800	530
WIDTH mm	540	660
HEIGHT mm	1230	960
CAPACITY FRIDGE l	190	85
CAPACITY FREEZER l	30 l	30 l
WEIGHT kg	71	49
AMPS	5.0	5.0
POWER Ah/24hr	85	65
SOLAR KIT	SK4	SK3

## **225I Refrigerator (BS225R)**

Power consumption figures are given for average use in 25°C ambient temperatures. Location, usage and ambient temperatures can greatly affect power consumption.

**Solar power kits include:** Photovoltaic panels, ground mount frame, deep cycle low maintenance batteries, charge regulator and wiring.
